

PRODUCT DESCRIPTION

The BLOW PlatinumTAB11 tablet is a versatile device, ideal for work, study and entertainment. It has a 10.51-inch IPS LCD screen with a resolution of 1200x1920, advanced Bluetooth 5.0 technology, a built-in GPS receiver for navigation, a long-lasting 7000 mAh battery, and is compact and lightweight, making it a great travel companion. It can be used by users of all ages, providing reliability and convenience in any place and situation

Be online wherever you are

With the new BLOW PlatinumTAB11 tablets, you can be online and enjoy internet access practically anywhere. This versatile device allows you to browse websites, communicate with friends via social networks and instant messengers, read e-books, watch movies, listen to your favorite music and check your email.

The perfect travel companion

The BLOW PlatinumTAB11 tablet accompanies you on your journeys thanks to its durable 7000 mAh battery, ensuring long work without the need to charge. Its compact size and low weight mean you can take it with you anywhere.

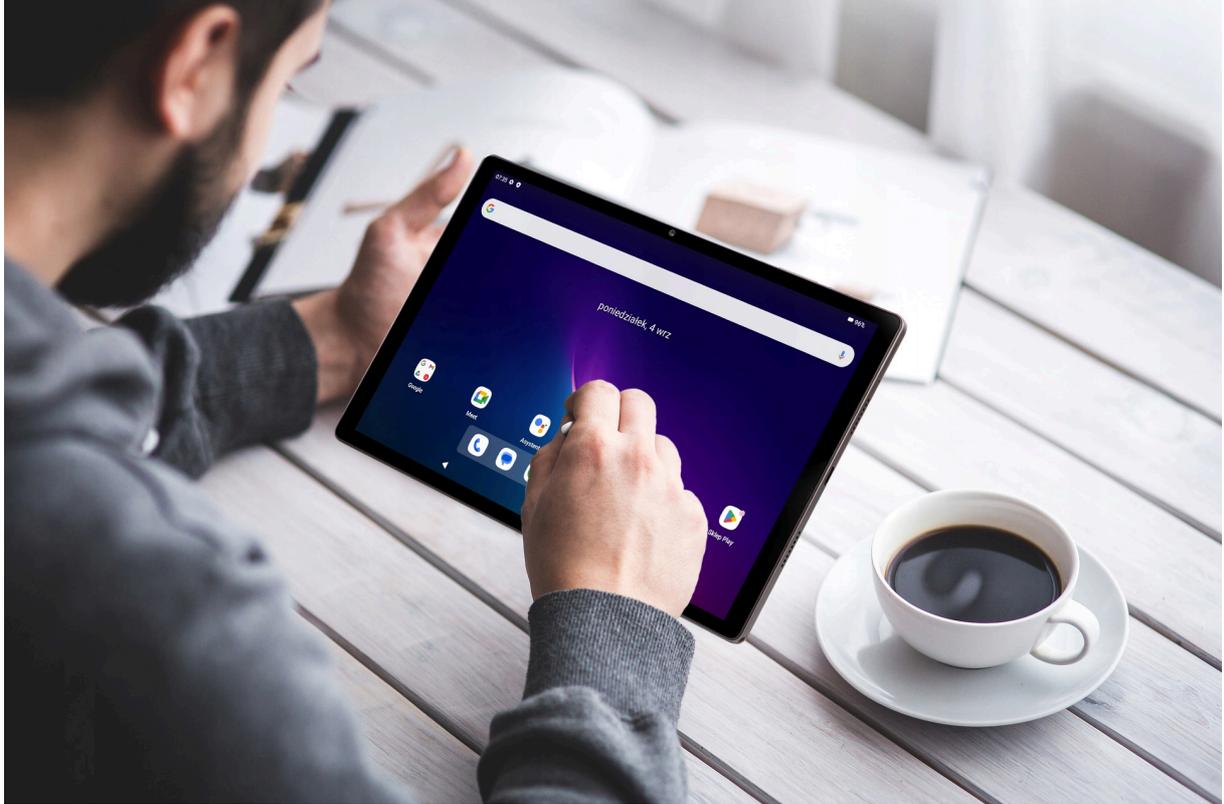

Hassle-free navigation

The tablet is equipped with a GPS function, which makes it easy to use navigation applications such as Google Maps or Yanosik. Just select your destination and the tablet will show you the best route. It is the perfect companion when exploring new places.

Stability and speed

The BLOW PlatinumTAB11 tablet is equipped with a unique processor with 8 cores and 8 GB of RAM, which guarantees extraordinary speed and performance when using demanding applications and games.

Advanced Bluetooth 5.0 technology

The BLOW PlatinumTAB11 tablet has an advanced Bluetooth 5.0 function, providing faster, more stable and more energy-efficient connections with other devices and more efficient data transfer. Now connecting to various devices is even easier and more efficient.

Fast Internet Access

The BLOW PlatinumTAB11 tablet supports 4G LTE and 3G WCDMA networks, guaranteeing fast access to the Internet. Thanks to the built-in SIM card module, you can receive calls and reply to messages. The built-in Wifi module allows you to connect to the network without a SIM card.

The power of apps at your fingertips

The BLOW PlatinumTAB11 tablet runs on Android 13, which gives you access to the Google Play Store and other popular apps. The system offers improved navigation, privacy controls, and excellent sound quality, as well as the ability to use services such as HBO MAX, Netflix, YouTube, and many more.

Universal for school, work, home

The BLOW PlatinumTAB11 tablet perfectly meets the needs of users of all ages . It works great during work, study and entertainment . It allows video conferencing, ideal for students and teachers during e-learning , eliminating the need to buy expensive computers.

Multiple language support

BLOW PlatinumTAB11 tablet supports multiple languages , including English, Ukrainian, Lithuanian, Latvian, Slovak, Czech, German, Spanish, French, Portuguese, Russian . This allows users to use the device in their favorite language and easily customize it to their needs.

Keyboard case included

The BLOW PlatinumTAB11 tablet comes with a case with a keyboard , which provides comfort and additional functionality, enabling comfortable writing and effective protection of the device .
