

AKRacing Chair California Tahoe Gaming

Inspired by the famous American state, the AKRacing California chair is ideal for smaller people or slim figures. The colourful design allows you to find your ideal posture to avoid back pain. The ergonomic curve of the seat naturally follows the curve of the lower back, while the lumbar pillows and headrests provide additional support. Featuring a steel frame with cold-cured foam padding, the AKRacing California offers maximum comfort and durability.

ADJUST IT TO YOUR LIKING

With the AKRacing California you can be sure to find the position that suits you best. Whether you're playing, working or just about to take a nap, the California is always there.

With a **tilt of up to 180°**, it's easy to find the right angle to suit your needs.

TAKE THE STRAIN OFF YOUR BACK

Sculpted to give you **perfect support for your lumbar** region, the AKRacing California is a must-have for your long sessions. The **ergonomic curve of the seat naturally follows the curve of your lower back**, while the included lumbar pillows and headrests provide extra support.

With the California, you can spend long hours in front of your screens without having to worry about the health of your back.

TOP QUALITY MATERIALS

The AKRacing California uses only the best materials. Thanks to an in-depth knowledge of racing car design, **AKRacing selects the same upholstery and padding materials** to offer you maximum comfort and durability.

In addition, you will benefit from a meticulous finish thanks to **meticulous quality control**, a **chiselled cut** and attention to the smallest detail.

PREMIUM ERGONOMICS

The **cold-cured foam** used in the AKRacing California seat has a minimum density of 55 kg/m³ for the seat and 50 kg/m³ for the back, offering **outstanding durability, support and comfort**.

What's more, **the foam retains its shape and density for many years**, so the seat will last you throughout your gaming career.
